

AN IMPORTANT MESSAGE FROM YOUR UNION

The Obama-Biden Energy Plan:

MORE JOBS FOR UNION WORKERS

CLEAN-COAL TECHNOLOGY HOLDS ENORMOUS POTENTIAL TO CREATE JOBS FOR SKILLED UNION TRADES ALL OVER AMERICA.

Barack Obama and Joe Biden have a plan to develop clean-coal technology on a commercial scale. As president, Obama will instruct the Department of Energy to enter into public-private partnerships to develop five "first-of-a-kind" commercial-scale, coal-fired plants with carbon capture and sequestration.

The Obama-Biden energy plan will transform the economy and create millions of new jobs. This comprehensive energy plan will invest \$150 billion over 10 years to advance the next generation of biofuels and fuel infrastructure, invest in low-emission coal plants and begin the transition to a new digital electricity grid. All of this means new and plentiful jobs for union workers.
